

# WHAT IS **CYBER INSURANCE** AND WHY DO LAW FIRMS NEED IT?

In the last decade, the cyber threat landscape has changed. While the loss or disclosure of sensitive data is a serious concern, law firms are increasingly facing threats to their ability to conduct normal operations. Business interruption, cyber extortion, and loss of critical operations data present cumulative risks that law firms must address.

## WHAT IS CYBER LIABILITY?

Cyber liability insurance helps protect law firms from data breaches, security breaches, and other emerging risks associated with cyber-attacks. Those costs can include lost income due to a cyber event, costs associated with notifying customers affected by a breach, costs for recovering compromised data, costs for repairing damaged computer systems and more. Without the right protection, there could be devastating financial consequences.

## WHY DO LAW FIRMS NEED CYBER LIABILITY?

Even the most well protected firms are being inundated with cyber threats. Firms of all sizes can provide a wealth of valuable or sensitive information for cybercriminals that requires significant time and resources to protect. Cyber insurance provides direct access to knowledgeable staff and valuable resources to mitigate exposure and swiftly assist in the successful handling of an incident.

## ISN'T THIS ALREADY COVERED BY MY LAWYER'S PROFESSIONAL LIABILITY POLICY?

Lawyer's professional liability insurance typically provides coverage against claims of negligence, errors or omissions resulting from performance of professional legal services. Conversely, cyber insurance covers liability and financial loss associated with a theft, or unauthorized disclosure of confidential information, loss of income and expenses that result from a data breach and/or security breaches. Attorney Protective's Cyber Liability and Breach Response Endorsement bridges this gap by offering cutting edge breach response and cyber liability coverage.

## WHAT ELSE IS COVERED?

Other coverages may include media liability, cyber extortion, and data protection. Attorney Protective's Cyber Liability and Breach Response Endorsement goes a step beyond traditional cyber liability with breach response coverage to handle public relations and crisis management expenses, call center services and forensic services.
